## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Hailer (4,313,619).

Hailer discloses a suspension structure for the front and rear wheels of an automobile, wherein the structure is respectively mounted at front and rear wheels with a first member 23, an upper arm, traversably supporting an upper portion of a knuckle 21a and a second member 22, a lower arm, traversably supporting a lower portion of the knuckle, and a ratio of the length of the second member relative to the length of the first member mounted at the front wheel is smaller than a ratio of the length of the second member relative to the length of the first member mounted at the rear wheel, as shown in the figures. The first members respectively mounted at the front and rear wheels are provided with struts 24, the length of the second member mounted at the front wheel is formed to be shorter than the length of the second member mounted at the rear wheel. The second members respectively mounted at the front and rear wheels are provided with struts, the length of the first member mounted at the front wheel is formed to be longer than the length of the first member mounted at the rear wheel.
